

## MODEL 5000 SIDE ENTRY MIXER with SHUT OFF DEVICE

The M5000 is a large side entry mixer for wine tanks in excess of 250m<sup>3</sup>. This cost effective and energy efficient mixer is fitted with our low shear Mixtec HA700 hydrofoil impeller ensuring maximum flow rates using minimum motor power.

The shut off device allows replacement of the mechanical seal and/or service of the geared motor without the need to empty the tank contents.

Mixers/agitator/rousters in wine tanks create continuous flow and mixing or blending in the tanks, used for;

- Wine storage maintaining homogeneity
- Wine blending
- Fermentation reducing CO<sub>2</sub> build up
- To enhance cold stabilisation
- To prevent temperature stratification

Mixtec – Western Engineering have been manufacturing a full range of mixing equipment for New Zealand industry for over 20 years. Each mixer is custom designed and manufactured for your application.

Mixtec – Western Engineering are a 100% NZ owned and operated company that prides itself on quality and on-time delivery. We manufacture mixers in our Auckland factory under licence using technology supplied by Mixtec in South Africa, who are one of the world's leading manufacturers of mixers and agitators.
