

MIXTEC IBC MIXERS

NZ Made range of IBC Mixers suitable for a variety of industries and applications. Available with single and three phase electric motors from 0.37kW to 2.2kW. Optional Exd and pneumatic motors for flameproof applications.

Mixtec review your mixing requirements based on product viscosity, specific gravity and a process description to provide you with a mixer designed specifically for your application. Available with a variety of folding hydrofoil impellers to give maximum flow inside the IBC for rapid mixing. Also available with sweep impellers for solids re-suspension and product storage applications. Your choice of galvanized or stainless steel frames with fork hoist pockets and an optional electronic variable speed drive.

Mixtec – Western Engineering are a 100% NZ owned and operated company that prides itself on NZ made quality and on-time delivery. We manufacture mixers in our Auckland factory under licence using technology supplied by Mixtec in South Africa, who are one of the world's leading manufacturers of mixers and agitators
